Dice Games: Activity #2

1. Keep the dice game sheets inside the plastic page protector provided.
2. Use the marker provided to write on top of the plastic page protector.
3. Roll the dice provided and follow the rules on each game sheet.
4. Play a dice game sheet 2 to 3 times each week. Once your student has played the game for a week, rotate the sheets for a whole new experience of learning fun!
5. Each page has specific directions on how to play the game. Begin with having your student roll one dice to complete the activities. As your child makes progress, have them roll two dice and add the numbers together to complete the activities. This will allow your child to practice the activities using larger numbers.
6. After your child plays a dice game, have them place one of the "Mad Minute Sheets" inside the page protector and use the marker provided to complete it. There is a new Mad Minute sheet for each week. The goal is for your student to be able to complete the 30 facts correctly before the 1 minute timer runs out.

Educate with dice

First Grade Edition
