Subtraction Facts on a Checkerboard

Checker clipart taken from
http://school.discoveryeducation.com/clipart/clip/checker.html

Owl Clipart from www.mycutegraphics.com

1. This game is played just like checkers.
2. Each player gets 12 chips or markers. (I suggest using Lego's.) They are a great size for the squares and they fit together for a "KING ME."
3. As the player moves diagonally, he or she must say the answer to the fact. Great practice for facts and students will love learning while playing an old fashioned game of checkers.

A.Looper

Subtract (1,2,3)

2-1		2-2		5-2		5-1	
	4-3		10-2		8-3		3-2
9-1		5-3		3-3		3-1	
	4-2		8-1		11-3		8-2
7-3		9-2		9-3		1-1	
	4-1		6-2		6-3		7-1
11-2		10-3		10-2		7-3	
	7-2		6-1		12-3		10-1

A.Looper

Subtract (4,5,6)

8-4		9-5		5-5		12-5	
	14-5		9-6		5-4		6-6
12-4		4-4		12-6		11-6	
	10-5		10-4		7-5		13-4
15-6		13-6		13-5		7-6	
	11-4		8-5		14-6		9-4
7-4		6-5		13-5		6-4	
	10-6		8-6		11-5		7-6

A.Looper

Subtract (7,8,9)

7-7		13-8		9-9		12-7	
	16-9		13-9		8-8		10-8
11-8		14-7		10-7		15-9	
	16-7		15-8		11-9		17-8
10-9		9-7		17-9		8-7	
	16-8		12-9		15-8		14-8
13-7		12-7		12-8		11-7	
	9-8		18-9		15-7		14-9

Subtract Big Numbers

A.Looper

11-4		13-8		10-4		12-7	
	16-9		13-9		14-5		11-5
11-8		14-7		10-7		15-9	
	16-7		15-8		11-9		17-8
12-5		13-4		17-9		12-4	
	16-8		12-9		15-8		14-8
13-7		12-7		12-8		11-7	
	13-5		18-9		15-7		14-9
