SECTION 5- STUDENT FINANCIAL ASSISTANCE ISSUES**

Recipients are not to limit honors, awards, and scholarships to a group on the basis of race, color, national origin, sex or disability unless such targeting is done to provide opportunities to members of a group that has not traditionally been represented. Outside agencies that provide awards are to be notified of the district's nondiscrimination policy.

SECTION 10 – WORK STUDY, COOPERATIVE EDUCATION, JOB PLACEMENT, AND APPRENTICE TRAINING ISSUES

An agency not only has the responsibility to provide its services in a nondiscriminatory manner, but it also has the responsibility not to contribute to or support discriminatory practices by non-school organizations that provide employment or workplace learning sites. Assignments cannot be made or withheld in work-based learning programs simply because of sex, race, national origin or disability of the student. It is also illegal to cooperate with an employer who requests that school refer or identify students on the basis of sex, race, color, national origin or disability status. It is recommended that agencies have written agreements whereby the cooperating worksite staff indicates that they will not discriminate and that they understand the school or consortium cannot work with any provider that does. It is necessary to regularly review these written agreements, the assignments of students presently in such programs, and the placement process to see whether any segregated or restrictive patterns exist.

APPENDIX H

CONTINUOUS NOTICE OF NON-DISCRIMINATION - SAMPLE 3

Introduction

The Department of Education's (ED) Office for Civil Rights (OCR) enforces several statutes that protect the rights of beneficiaries in programs or activities that receive financial assistance from ED. These laws prohibit discrimination on the basis of race, color, and national origin (Title VI of the *Civil Rights Act of 1964*), sex (Title IX of the *Education Amendments of 1972*), disability (Section 504 of the *Rehabilitation Act of 1973*), and age (*Age Discrimination Act of 1975*). OCR also has enforcement responsibilities under Title II of the *Americans with Disabilities Act*, which prohibits state and local governments from discriminating on the basis of disability. In addition, OCR enforces the *Boy Scouts of America Equal Access Act* which addresses equal access to meet on school premises or in school facilities for the Boy Scouts of America and other designated youth groups.

This fact sheet explains the requirements for schools, colleges, and state and local governments that receive federal funds to issue notices of non-discrimination, clarifies the information that they should include in their non-discrimination notices, and provides a sample notice of non-discrimination. This fact sheet is designed to assist education institutions in establishing a notice of non-discrimination that meets the requirements of the applicable regulations.

Notice of Non-discrimination Requirements

The regulations implementing Title VI, Title IX, Section 504, the *Age Discrimination Act*, and the *Boy Scouts Act* contain requirements for recipients to issue notices of non-discrimination. (See 34 C.F.R. Sections 100.6(d), 106.9, 104.8, 110.25, and 108.9, respectively.) The Title II regulation also contains a notice requirement that applies to all entities of state or local government, whether or not they receive federal financial assistance. (See 28 C.F.R. Section 35.106.)

These regulations require that recipients notify students, parents and others that they do not discriminate on the basis of race, color, national origin, sex, disability, and age, and, if applicable, that they provide equal access to the Boy Scouts of America and other designated youth groups. However, these regulations contain minor differences relating to the required content of recipient notices of non-discrimination and the methods used to publish them.

The Title VI regulation requires schools and colleges to notify students and others of the regulatory provisions in a manner that a responsible ED official would find necessary to tell students of their protections against discrimination under the statute and regulation.

The Boy Scouts Act regulation incorporates the Title VI regulatory provision concerning notice of non-discrimination. Public elementary and secondary schools and local and state educational agencies that receive funds made available through ED must make available information regarding the provisions of the Boy Scouts Act. This information must be made available in a manner that a responsible ED official would find necessary to inform people of the protections provided under the Boy Scouts Act and its regulation. Entities other than public elementary and secondary schools

and local and state educational agencies that receive funds made available through ED need not provide this notice, as the Boy Scouts Act does not apply to them.

The Title IX and the Section 504 regulations both contain more detailed requirements that specify the information that must be included in a notice of non-discrimination. These regulations also require recipients to designate at least one employee to coordinate efforts to comply with and carry out responsibilities.

The Title IX regulation requires schools and colleges to implement specific and continuing steps to inform students and others of the protections against discrimination on the basis of sex. The notification must state that the requirement of non-discrimination in educational programs and activities extends to employment and admission. It also must say that questions about Title IX may be referred to the employee designated to coordinate Title IX compliance or to the assistant secretary for civil rights. Schools are required to include the name, address, and telephone number of the designated coordinator in their notifications.

The Section 504 regulation requires that schools and colleges employing 15 or more persons implement appropriate, continuing steps to notify students and others that the school does not discriminate on the basis of disability in violation of the statute and regulation. The notification must state, where appropriate, that the school or college does not discriminate in admission, treatment, or access to its programs or activities. The notification also must state that the school or college does not discriminate in employment in its programs or activities. The employee designated to

coordinate compliance with the Section 504 regulation must be identified in the notification.

The Title II regulation requires that a public entity generally make information regarding the provisions of Title II available to applicants, participants and other interested persons in such a manner as the head of the entity finds necessary to apprise such persons of the protections against discrimination under the Americans with Disabilities Act. The regulation implementing the Age Discrimination Act requires a school or college to notify its students and applicants, in a continuing manner, of information regarding the provisions of the act and these regulations. The notice must identify the compliance coordinator by name or title, address, and telephone number.

Methods of Notification

In accordance with the Title IX and Section 504 regulations, notification may include posting information notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school or its students, publishing in alumni or alumni newspapers or magazines, or distributing memoranda or other written communications to students and employees. In addition, recipients are required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees. As noted in the pertinent Section 504 regulatory provision, schools may meet this requirement either by including appropriate inserts in existing materials and publications

or by revising and reprinting the materials and publications.

Neither the Title VI regulation, the *Boy Scouts Act* regulation, the *Age Discrimination Act* regulation, nor the Title II regulation specifies the methods to be used by recipients in publishing notices of non-discrimination.

Combined Requirements

OCR recognizes the variations among the regulations governing notice requirements and understands that schools and colleges may wish to use one statement to comply with all requirements of the regulations implementing Title VI, Title IX, Section 504, the *Age Discrimination Act*, and, if applicable, the *Boy Scouts Act*. Public institutions also may wish to include Title II of the *Americans with Disabilities Act* in their statement. OCR encourages one combined notice for the regulations.

A combined non-discrimination notice should contain two basic elements: (1) a statement of non-discrimination that specifies the basis for non-discrimination; and (2) identification by name or title, address, and telephone number of the employee or employees responsible for coordinating the compliance efforts.

The regulations do not require that a recipient identify the pertinent regulations by title. Please see the sample notice at the end of this pamphlet.

The Title IX regulation requires a recipient to provide the name of the person responsible for its compliance effort in addition to the address and telephone number where that person may be contacted. However, because OCR recognizes that the inclusion of a person's name

in a non-discrimination notice may result in an overly burdensome requirement to republish the notice if a person leaves the coordinator position, it is acceptable for a recipient to identify its coordinator only through a position title.

The Section 504 regulation does not require a recipient to include the address or telephone number of the responsible employee assigned to coordinate its compliance efforts. However, OCR considers that identifying the responsible employee without information on how to contact that person does not constitute an effective notice. An acceptable non-discrimination notice should provide information on how to contact the responsible employee.

Compliance with the notification requirements of Section 504 will also generally satisfy the notification requirements of Title II for state and local governments.

Although the Section 504 and Title IX regulations state that schools and colleges, where appropriate, shall specify non-discrimination in the areas of admission and employment, a general statement indicating non-discrimination in all programs is acceptable.

The Title IX regulation indicates that inquiries concerning the application of the Title IX regulation may be referred to the coordinator or to the assistant secretary for civil rights. An acceptable notice may include the names and titles of either one or both individuals.

However, since the Section 504 regulation requires identification of a coordinator, a combined non-discrimination notice should

include the name and/or title of the responsible employee. If a recipient designates two different people to coordinate compliance with Section 504 and Title IX, both names or titles should be included in the notice.

Sample Notice of Non-discrimination

The following sample notice of non-discrimination meets the minimum requirements of the regulations enforced by OCR:

The (Name of Recipient) does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups.¹ The following person has been designated to handle inquiries regarding the non-discrimination policies:

FY2021 Georgia OCR (Office for Civil Rights)/MOA (Methods of Administration) Compliance Reviews

Frequently Asked Questions

Q. What are the federal civil rights laws, regulations and guidelines with which CTAE program must comply?

Federal law requires that all school districts receiving federal funding support from the U.S. Education Department, and providing career, technical and agricultural education programs shall comply with:

THE CIVIL RIGHTS ACT OF 1964, TITLE VI:

No person in the United States shall, on the ground of race, color, or national origin, be excluded from, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

THE REHABILITATION ACT OF 1973, SECTION 504:

No otherwise qualified handicapped individual...shall, solely by reason of his or her handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

THE EDUCATION AMENDMENTS OF 1972, TITLE IX:

No person...shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

THE AMERICAN WITH DISABILITIES EDUCATION ACT OF 1990, TITLE II:

An act to establish a clear and comprehensive prohibition of discrimination on the basis of disability.

Vocational Education Program Guidelines for Eliminating Discrimination and Denial of Services on the Basis of Race, Color, National Origin, Sex, and Handicap. Federal Register, March 21, 1979.

Q. What do I need to do if my local system is selected?

A. School districts selected for an OCR/MOA review of CTAE programs will be notified at least 30 days in advance. The facilities and documents to be reviewed, as well as an explanation of the process will be provided in a detailed notification letter. The notification will be emailed to the school superintendent and the CTAE director. Agencies that have implemented a self assessment process according to guidance and materials provided by CTAE review team should have in place the necessary documents and information.

Q. What will happen during the review process and after?

A. The review team will conduct a virtual meeting with school superintendent, CTAE director and other staff. During the meeting, the review team will share findings for CTAE programs, school facilities, documents provided, interview surveys, and conduct an exit report to discuss “findings”. The team will conduct on-site facilities review within the next 60 days. Within 45 days of the facilities visit, a Letter of Findings (LOF) will be emailed to the district superintendent and the CTAE supervisor. The local agency is required to produce a voluntary compliance plan (VCP) to correct all violations. The review team will assist the school(s) in resolving any violations within a reasonable period of time, in order to finalize the review process.

Q. What facilities will be reviewed?

A. The review team will review all instructional programs, as well as areas where students participate in general programs of instruction. The purpose is to assure that CTAE programs and other activities are accessible to, and usable by, persons with disabilities, and that equal educational opportunity is provided. The review may include libraries, cafeterias, resource rooms, counseling and administrative offices, lavatories, parking areas, building entrances, hallways, as well as CTAE program areas and other areas as determined. Please note that the federal financial assistance is not limited to receipt of Carl Perkins funding. It includes any funding from the U. S. Department of Education.

Q. How are school districts selected for onsite reviews?

A state targeting plan, approved by the federal Office for Civil Rights, identifies the information and procedures used to select systems for review. A copy of this targeting plan is available for review upon request. Contact Dr. Ray Anukam at ranukam@doe.k12.ga.us if you have questions.

To ensure equitable distribution of federal vocation education funds and to encourage high-quality Career, Technical and Agricultural Education (CTAE) programs, the U.S. Department of Education Office for Civil Rights requires the local agency to conduct compliance reviews of the state’s CTAE programs. “The mission of the U.S. Department of Education Office for Civil Rights is to ensure equal access to education and to promote educational excellence throughout the nation through vigorous enforcement of civil rights.”

School districts have been selected for on-site review and technical assistance based on a federally approved targeting plan. Ongoing compliance with civil rights statutes is required by the U.S. Department of Education Office for Civil Rights, regardless of whether your school district receives an onsite review. Federal civil rights regulations and guidelines can help us to provide each student with greater opportunities to achieve high academic standards, and to eliminate the achievement gap at state and local levels.
