**Georgia Department of Public Health  
Form 3300  
Certificate of Vision, Hearing, Dental, and Nutrition Screening**

We are pleased to announce the revised Form 3300, Certificate of Vision, Hearing, Dental and Nutrition Screening, is available for the 2013-2014 school year. The original Form 3300, Certificate of Ear, Eye and Dental Examinations, was revised to make it clear and easy to understand for health providers, parents and schools. Both the front and back of the Form 3300 contains updated information and there is also an added section for nutrition screening. Computerized versions of the Form 3300, Certificate of Vision, Hearing, Dental and Nutrition Screening must contain all the information included in the current form provided by the Georgia Department of Public Health.

The Form 3300 is required to be presented to school authorities when a child is being admitted for the first time to public school in Georgia. During the 2013-2014 school year, school authorities may accept either the Form 3300 (Rev 2013) or the previous version of Form 3300. For the 2014-2015 school year and later years, only the Form 3300 (Rev 2013) shall be accepted.
