

Georgia's
College and
Career
Academies

2016-2017
and
2017-2018

The Georgia
Department of
Education's
District Flexibility
and Charter
Schools Division
2017 Annual
Report submitted
on behalf of the
State Board of
Education

Georgia General Assembly
State Capitol Building
Atlanta, GA 30334

December 22, 2017

Dear Members of the Georgia General Assembly,

Georgia law established a college and career academy certification process by the Technical College System of Georgia (TCSG) in partnership with the State Board of Education [see *O.C.G.A. § 20-4-37*]. Certification requirements include submission of annual report information to TCSG through the Department of Education.

While the State Board of Education is required to report to the General Assembly each year on the status of the college and career academies created through charter school contracts [see *O.C.G.A. § 20-2-2067.1(c) and § 20-2-2070*], college and career academies are now incorporated into Charter System contracts and Strategic Waivers School System contracts [see *O.C.G.A. § 20-2-326*].

On behalf of the State Board of Education, the Department has compiled the 2017 college and career academy annual report data into the 2017 College and Career Academy Annual Report that is before you now.

Thank you for your ongoing dedication and hard work in helping to strengthen Georgia's public education system.

Sincerely,

Scott Johnson, Chair
Kevin Boyd, Co-Chair
District Flexibility and Charter Schools Committee, State Board of Education

Georgia College and Career Academies

In 2007, newly-elected Lieutenant Governor Casey Cagle established Georgia's College and Career Academy Network to offer high school students access to accredited college-level courses and technical certification programs. College and Career Academies represent a community partnership between a local school system, a technical college or post-secondary institution, and business leaders represented on the academy's governing board, to ensure the fulfillment of its workforce development mission specific to each community. This was based on the Central Education Center model created in 2000 in Coweta County.

Each year, the General Assembly appropriates funds in the state budget to facilitate a competitive grant process that helps school systems build College and Career Academies. In 2007, five systems started construction on the first Georgia College and Career Academy Project-funded academies.

The number of College and Career Academies in the state continues to grow. Currently there are 43 operating or proposed College and Career Academies. There are 6 pending, including three announced in December 2017 opening in Greene County, Marietta City and Paulding County. Of the 37 operating College and Career Academies, 23 were created by a locally-approved three-party contract, 13 as part of the Innovative Features of a Charter System Contract, and 1 is now part of a Strategic Waivers System.

Today, more than 30,000 students are enrolled in Georgia's 37 operating College and Career Academies. Plans are in place for more school systems to receive grants each year, making it possible for Georgia to achieve the goal set by Lieutenant Governor Cagle so that by the year 2020 every single student in Georgia will have access to a College and Career Academy.

Below is a list of the 43 operating or proposed College and Career Academies, with the district(s) served, post-secondary partner and type of contract to create a College and Career Academy.

Georgia College and Career Academies Operating and Proposed

GCCAs by the Numbers –

<i>All CCA Students, including Charter Schools (23), Charter Systems (13) and Strategic Waiver System (1) enrollment</i>	
2017-18 Enrollment*	31,916
Students participating in Move On When Ready (MOWR)*	21,900
Students participating in Work-Based Learning (WBL)*	4,727
Students participating in an apprenticeship*	2,796

**Enrollment numbers based on 2017 Annual Report submissions*

The following is a list of the various Career Pathways offered at Georgia College and Career Academies.

2017-18 Career Pathways		
Agriculture	Electronics	Industrial Mechanic German Apprenticeship
Algebra	EMT	Interior Design
Architectural Drawing & Design	Energy & Power: Generation, Transmission, and Distribution	JROTC
Automotive Services and Repair	Engineering, Drafting and Design	Law and Public Safety
Aviation	English/Language Arts	Logistics
Barbering	Family & Consumer Science	Manufacturing
Biotechnology	Film, Television, and Interactive Entertainment - High School	Marketing
Business management	Financial Services	Mechanic and Repair Technology
Computer/Information Sciences	Firefighting	Mechanical Engineering and 3D Design
Construction	Food Nutrition	Mechatronics
Cosmetology	Global Logistics	Nutrition and Food Science
Criminal Justice	Graphic Design & Animation	Precision Machining
Culinary Arts/Hospitality	Health profession- Dental Assisting	Public Speaking
Dental Care Assistant	Health Profession: Pharmacy	Robotics and Automation
Diesel Technology and Repair	Health profession-Patient Care Assisting	Vet Science
Drafting & Design	Homeland security and defense/law enforcement	Visual Arts
Early Childhood Education	Horticulture	Welding
Education	Industrial Maintenance	

College and Career Academies Overviews

The following pages provide an overview of each College and Career Academy in the state. They are sorted by the district representation. It includes the stakeholders (post-secondary partners, as well as business, industry and community partners), Industry Certifications, enrollment numbers, and Career Pathways.

Atlanta College and Career Academy:

GCCA Type: Charter System (*pending*)

District(s): Atlanta Public Schools

STAKEHOLDERS	
Post-Secondary Partners	Atlanta Technical College
Business, Industry, and Community	Holder Construction; Achieve Atlanta; IBM; Atlanta Chamber of Commerce; Kauffman Tires

INDUSTRY CERTIFIED PROGRAMS	Automotive Chassis Technology, Barbering, Cosmetology, Computer Information Systems, Design Media Technology, Early Childhood Care, Patient Care Assisting, Electronics, Culinary Arts

Charter School Rules – 2017 Update

The State Board of Education in August 2017 adopted revised Charter Rules to implement legislative changes from the 2017 session and to make other changes. The revised rules include the following changes and/or additions.

160-4-9-.05 Charter Schools Petition Process

- Clarify that the maximum charter term for all charter school contracts is five (5) years.
- Clarify that any federal, state, and local rules and regulations, court orders, and statutes related to the physical and mental health and safety of school students, employees, and visitors cannot be waived by charter schools or charter systems.
- Clarify that charter schools cannot require parent/guardian volunteer commitments as a condition of enrollment in the school.
- Add requirement that charter school petitioners provide a description of how its governing board, students, faculty, and staff will be representative of the community diversity in its proposed attendance zone.
- Clarify that charter school employees are prohibited from serving on the school's governing board unless otherwise stipulated by the Department.

160-4-9-.06 Charter Authorizers, Financing, Management, and Governance Training

- Clarify that the local district must provide the assurance to the Department regarding a new charter school achieving ready-to-open status.
- Clarify that the local board of education and the Georgia Department of Education must evaluate a charter school's performance annually using the Department's performance work (or an alternate approach approved by the Department).
- Clarify that charter schools must maintain their school records, including school policies, budgets, and governing board meeting materials, and make them available for public inspection via an online school website pursuant to the Georgia Open Records Act.
- Clarify that a charter school or charter system may be placed on probation or terminated for failure to meet one or more of the standards given in the Department's performance framework.
- Clarify the permitted financial governance training providers for new and returning charter school governing board members.
- Clarify the training requirements for college and career academy governing board members, including the number of hours, topics, and permitted training providers.
