

Georgia's
College and
Career
Academies

2017-2018
and
2018-2019

The Georgia
Department of
Education's
District Flexibility
and Charter
Schools Division
2018 Annual
Report submitted
on behalf of the
State Board of
Education

Georgia General Assembly
State Capitol Building
Atlanta, GA 30334

December 29, 2018

Dear Members of the Georgia General Assembly,

Georgia law established a College and Career Academy certification process by the Technical College System of Georgia (TCSG) in partnership with the State Board of Education [see O.C.G.A. § 20-4-37]. Certification requirements include submission of annual report information to TCSG through the Department of Education.

While the State Board of Education is required to report to the General Assembly each year on the status of the college and career academies created through charter school contracts [see O.C.G.A. § 20-2-2067.1(c) and § 20-2- 2070], college and career academies can now be incorporated into Charter System contracts and Strategic Waivers School System contracts [see O.C.G.A. § 20-2-326]. We therefore provide you with a separate report combining information on all College and Careers Academies, including those with their own three-party charter school contract, as well as those included within an SWSS or Charter System contract.

On behalf of the State Board of Education, the Department has compiled the most recent college and career academy data available into the 2018 College and Career Academy Annual Report that is before you now.

Thank you for your ongoing dedication and hard work in helping to strengthen Georgia's public education system.

Sincerely,

Kevin Boyd, Chair
District Flexibility and Charter Schools Committee
State Board of Education

Georgia College and Career Academies

In 2007, newly-elected Lieutenant Governor Casey Cagle established Georgia's College and Career Academy Network to offer high school students access to accredited college-level courses and technical certification programs. College and Career Academies represent a community partnership between a local school system, a technical college or post-secondary institution, and business leaders represented on the academy's governing board, to ensure the fulfillment of its workforce development mission specific to each community. This was based on the Central Education Center model created in 2000 in Coweta County.

Each year, the General Assembly appropriates funds in the state budget to facilitate a competitive grant process that helps school systems build College and Career Academies. In 2007, five systems started construction on the first Georgia College and Career Academy Project-funded academies.

The number of College and Career Academies in the state continues to grow. Currently there are 48 operating or proposed College and Career Academies. Thirty-nine (39) are operating and 9 are pending, including four announced in December 2018 opening in Ben Hill County, Jackson County, Jones County and Sumter County. Of the 39 operating College and Career Academies, 23 were created by a locally-approved three-party charter school contract, 14 are incorporated Charter System contracts, and 2 are incorporated into Strategic Waivers School System contracts.

Today, more than 30,000 students are enrolled in Georgia's 39 operating College and Career Academies. Plans are in place for more school systems to receive grants each year, making it possible for Georgia to achieve the goal set by Lieutenant Governor Cagle so that by the year 2020 every single student in Georgia will have access to a College and Career Academy.

Below is a list of the 48 operating or proposed College and Career Academies, with the district(s) served, post-secondary partner and type of contract to create a College and Career Academy.

Career Pathways:

The following is a list of the various Career Pathways offered at Georgia College and Career Academies.

2018-19 Career Pathways		
Agriculture	Electronics	Industrial Mechanic German Apprenticeship
Algebra	EMT	Interior Design
Architectural Drawing & Design	Energy & Power: Generation, Transmission, and Distribution	JROTC
Automotive Services and Repair	Engineering, Drafting and Design	Law and Public Safety
Aviation	English/Language Arts	Logistics
Barbering	Family & Consumer Science	Manufacturing
Biotechnology	Film, Television, and Interactive Entertainment - High School	Marketing
Business management	Financial Services	Mechanic and Repair Technology
Computer/Information Sciences	Firefighting	Mechanical Engineering and 3D Design
Construction	Food Nutrition	Mechatronics
Cosmetology	Global Logistics	Nutrition and Food Science
Criminal Justice	Graphic Design & Animation	Precision Machining
Culinary Arts/Hospitality	Health profession- Dental Assisting	Public Speaking
Dental Care Assistant	Health Profession: Pharmacy	Robotics and Automation
Diesel Technology and Repair	Health profession-Patient Care Assisting	Vet Science
Drafting & Design	Homeland security and defense/law enforcement	Visual Arts
Early Childhood Education	Horticulture	Welding
Education	Industrial Maintenance	

College and Career Academies Overviews

The following pages provide an overview of each College and Career Academy in the state. They are sorted by the district representation. It includes the stakeholders (post-secondary partners, as well as business, industry and community partners), Industry Certifications, enrollment numbers, and Career Pathways.

Atlanta College and Career Academy:

GCCA Type: Charter System (*pending*)

District(s): Atlanta Public Schools

STAKEHOLDERS	
Post-Secondary Partners	Atlanta Technical College
Business, Industry, and Community	Holder Construction; Achieve Atlanta; IBM; Atlanta Chamber of Commerce; Kauffman Tires

INDUSTRY CERTIFIED PROGRAMS	Automotive Chassis Technology, Barbering, Cosmetology, Computer Information Systems, Design Media Technology, Early Childhood Care, Patient Care Assisting, Electronics, Culinary Arts
